The Following Request for Information (RFI) and their accompanying responses are incorporated into this RFP:

Q54. When can we expect the release of Phase 2 RFP?

A54. Bid for the construction of the power plant and ancillary facilities will be issued after the award of the EEGE RFP currently under consideration. The contract will be a general installation contract.

Q55. Aside from a bid bond or irrevocable letter of credit, would either of the following bid security forms be acceptable:
   i) an unconditional bank guarantee, or
   ii) a certified check payable to the Chuuk Public Utilities Corporation

A55. A certified check will be acceptable.

Q56. We will have to send our sealed proposal by express mail to support the deadline. For this reason do you have a physical address that we can send the proposal instead of the PO Box address. Express deliveries are normally not made to PO Box addresses. Also, do you have a phone number that can be provided?

A56. The following address can be used in the event that PO Box is not permissible

   CPUC
   Atens Building 2nd Floor
   Fais
   Nepukos
   Weno
   FM96942
   Federated States of Micronesia

   Tel: 691 330 2400

   CPUC recommends the use of DHL as courier provider
